

Dear [title and surname from spreadsheet]

Your Self Assessment tax return for 2021 to 2022

Our records show that although you are registered for Self Assessment, your account is currently classed as being closed.

You may need to send us a return if:

- you earn more than £100,000 - even if Pay As You Earn (PAYE) is applied
- you received income from property above the rent-a-room limit of £7,500, or £3,750 if someone else also got income from the same property in the same period
- you received income from self-employment, contractor work, or subcontractor work and exceeded the £1,000 trading allowance - for more information on trading allowances, go to GOV.UK and search 'Expenses if you're self employed'
- you disposed of shares, property (which could include your main home if conditions for relief were not met or only partially met), or other assets - even if you gifted them
- you have dividends or savings interest – not including ISAs
- you claim tax relief on gift aid donations or pension contributions
- the High Income Child Benefit Charge applies to you
 - this means that you or your partner have an individual income that's over £50,000 and either you or your partner get Child Benefit (or someone else gets Child Benefit for a child living with you and they give you or your partner at least half of it)
- you make student loan repayments - repayments dealt with via PAYE would not need a return

Please review your tax affairs to see if you need to register for Self Assessment and send us a tax return. Please note this isn't a formal compliance check in to your tax affairs.
