INVITATION TO COMMENT:

DRAFT ENDORSEMENT CRITERIA ASSESSMENT: AMENDMENTS TO IFRS 4 – EXTENSION OF THE TEMPORARY EXEMPTION FROM APPLYING IFRS 9

Deadline for completion of this Invitation to Comment:

Introduction

The objective of this Invitation to Comment is to obtain input from stakeholders on the endorsement and adoption of the IASB's *Amendments to IFRS 4 – Extension of the Temporary Exemption from Applying IFRS 9* (the Amendments) in the UK.

Interaction with EU endorsement and adoption process

The UK leaves the EU at the end of the Transition Period on 31 December 2020.

Until the end of the Transition Period, the European Commission will continue to endorse IFRS for use in the UK.

If the EU endorses the Amendments before the end of the Transition Period, UK companies will be able to apply them as they will automatically form part of the body of IFRS adopted for use in the UK at the end of the Transition Period.

If the EU does not endorse the Amendments before the end of the Transition Period, UK companies wishing to apply the Amendments from 1 January 2021 onwards will be reliant on UK-adoption of the Amendments. Due to the uncertainty in timing of EU adoption of the Amendments, work is being undertaken to ensure the UK is ready to undertake adoption, in January 2021, if necessary.

UK endorsement and adoption process

At the end of the Transition Period, UK-adopted international accounting standards will consist of all international accounting standards already adopted in the EU. New and amended standards, not already adopted in the EU, will be considered for endorsement and adoption in the UK. The Secretary of State for the Department for Business, Energy and Industrial Strategy will undertake this function from the end of the Transition Period until the endorsement and adoption functions are delegated to the UK Endorsement Board (EB). This delegation is currently expected to occur during 2021.

The requirements for UK endorsement and adoption are set out in the Statutory Instrument 2019/685¹.

The Endorsement Board is currently being established and will be responsible for endorsing and adopting IFRS for use in the UK after the end of the Transition Period and once these functions have been delegated to it by the Secretary of State. The Endorsement Board will also be responsible for influencing the future direction of IFRS.²

During the establishment of the Endorsement Board, the staff are undertaking endorsement activities with the support of Financial Reporting Council (FRC) infrastructure and resource.³

The information collected from this Invitation to Comment is intended to help with the endorsement assessment. This will form part of the work necessary for potential UK endorsement and adoption of the Amendments.

Who should respond to this Invitation to Comment?

Stakeholders with an interest in the quality of accounts that apply IFRS.

We estimate it will take no more than 10 minutes to complete.

Part B: Assessment against technical criteria

Our initial assessment concludes that:

- the Amendments meet the criteria of relevance, reliability, comparability and understandability required of the financial information needed for making economic decisions and assessing the stewardship of management, as required by SI 2019/685 (see Regulation 7(1)(c)); and
- application of the Amendments is not contrary to the principle that an entity's accounts/consolidated accounts must give a true and fair view as required by SI 2019/685 (see Regulation 7(1)(a)).

Our assessment is set out in the following sections:

Section 3: Rationale for the Amendments
Section 4: Assessment against technical criteria
Section 5: True and fair view

Part C: Assessment against UK long term public good

Our initial assessment concludes that the Amendments:

- will improve financial reporting when compared to the unamended requirements of IFRS 4;
- will lead to benefits that exceed the costs; and
- are not likely to have an adverse effect on the economy of the UK, including on economic growth.

Overall, we conclude that the Amendments are likely to be conducive to the long term public good in the UK as required by SI 2019/685 (see Regulation 7(1)(b)).
